## bio

Vancouver-based Artist Katherine Laflamme has been spreading her commercial art across Canada for over 10 years. Originally from Quebec City, Laflamme quickly made her mark on the West Coast with her innovative art pieces and broad educational background.

Katherine's artistic education started early as a child through extra curricular programs and continued through to her time at the Emily Carr Institute. Along the way, she studied graphic design, 3D animation, literature, social studies, and culminated in fine arts. Aside from painting colourful pieces and putting together art shows, Katherine has been able to use her training to become an accomplished Graphic Designer and Commercial Illustrator, having worked on several animated TV shows and for major advertising firms across Canada.
